

COMPLEX

By. Zachary Thammavongsy & Mikhail Konev

A transition metal complex game where players need to effectively communicate with each other to guess their teams' given complex-cards on the field. Players are divided equally into two teams and square off on the plane to see which group can come up with the best two-letter words. Coordinate with your teammates! The score is bound to seesaw back and forth, but don't give up and get bent out of shape!
